### MONTY ANSWERS

**Question:**

Hi Monty, what was the worst experience ever with a horse and what was the best?

**Monty's Answer:**

It seems to me that the worst experience I ever went through with a horse happened when I was about 15 years of age. I was riding my second horse, Brownie. He had been a major champion for me throughout my junior competition career. He was a captured Mustang and represents one of the first horses I trained through "Join-Up". I loved him like a brother.

While working Brownie one afternoon, he simply dropped out from under me and died instantly of a massive heart attack. It was one of those experiences a horseman tends to want to forget, and I haven't visited these thoughts for many years. Brownie and his attempt to educate me will remain with me for the balance of my days. His work will

### Monty's Challenge

help other people too.

The best experience of the thousands of positives that I have had, the day that Johnny Tivio broke a world record in a Western competition. The particular record that he broke was in a class which represented the first time he had competed in that particular type of competition. It was overwhelmingly satisfying and nobody believed it was his first time.

## THIS WEEK IN MONTY'S EQUUS ONLINE UNI

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: [askmonty@montyroberts.com](mailto:askmonty@montyroberts.com)

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

~ Monty

### Next Week's Question:

I can't imagine how many horses you have worked with and trained. Would you please share what you think is the best thing about horses?

In this week's video lesson on [Equus Online University](http://Equus Online University), Monty talks about safe practices involved in tying your horse. Do you know what is the best length of line and type of knot for your horse to stand safely at the hitch rail?

## SUCCEED: Digestive Health

"I have believed for years that digestive health has a major impact on a horse's happiness,

performance and overall well-being. Just by owning and riding horses, we take them out of their natural environment. We keep them in stalls, we feed them grain, and we exercise them. All of this works against the horse's digestive health.

I also believe there is something you can do to care for your horse's digestive system. I've been using a product called SUCCEED® on my performance horses for many years now, with tremendous results." ~ Monty
