Greetings!

We have reached critical mass. The world is changing, and I am so proud to be a part of that change. Be a part of our force-free future.

## Monty's Principles

### Monty's Motivational Message

"This morning I came across a poignant poem. It's incredible how its words ring true even though it was written many decades ago by Rudyard Kipling." ~ Monty

The poem is titled 'IF' and you can watch Monty recite this

poem on Facebook here:

## MONTY ANSWERS

### Question:

It was great to see you on Fox and Friends and in the US helping our Veterans. I hope you get to Cleveland again. I'll never forget that abused horse you were able to help. You obviously hope to improve human's lives as well as horses. How is that?

### Monty's Answer:

Each element of human behavior that I work with has its own psychological implications. In the case of the military people, one must recognize that when building an army, the decision makers must cleanse each individual of trust. Men and women going to war must become devoid of trusting any one or any thing. It is the nature of surviving at war.

When returning from war, these individuals are asked to go back to civilian life, trust their wife, their children, and their boss. They are told to get a job, be a nice person and live happily. There is very little that is done in any country to reeducate these people to the challenges they are going to face in the absence of trust. Horses can cause the trust to return.

## Monty's Challenge

It has become my goal on [my tours](#) to show my audiences how I can use horses to elevate the trust in human beings. This is a relatively new adventure for me although I began my work for the military in 1954. It was during my University education in Behavioral Sciences. Now I can show how horses can play a role in improving the lives of people.

## THIS WEEK IN MONTY'S EQUUS ONLINE UNI

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: [askmonty@montyroberts.com](mailto:askmonty@montyroberts.com)

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

~ Monty

### Next Week's Question:

I am from Brazil and hope to see you work with horses in person someday. I don't understand Natural Horsemanship. Is it just being nice to your horse or can you tell me what you do differently and why it works?

In this week's video lesson on [Equus Online University](#), Monty talks about safe practices involved in tying your horse. Do you know what is the best length of line and type of knot for your horse to stand safely at the hitch rail to train your horse to stand still at the mounting block?

## Now Playing: NEW! Monty's Latest Training Breakthroughs Part II

[The Horseman Radio Show](#) is an online radio show (podcast) dedicated to the exploration of good horsemanship throughout the world. Hosted by Debbie Loucks (Monty Roberts' daughter), the show includes segments, tips and interviews exploring good horsemanship.

### Latest Training Breakthroughs with Monty Roberts Part 2

NEW! Now Playing: Monty Roberts recently saved the life of a very spooky horse who had injured several riders and shares his concepts. Picasso is a registered American Paint whose name is now endowed forever on the Picasso Award for outstanding sportsmanship for ACTHA. And Tevis Cup winner Heather Reynolds gives us a tip for endurance training.

## SUCCEED: Digestive Health

"I have believed for years that digestive health has a major impact on a horse's happiness, performance and overall well-being. Just by owning and riding horses, we take them out of their natural environment. We keep them in stalls, we feed them grain, and we exercise them. All of this works against the horse's digestive health.

I also believe there is something you can do to care for your horse's digestive system. I've been using a product called SUCCEED® on my performance horses for many years now, with tremendous results." ~ Monty
