## MONTY ANSWERS

### Question:

Monty was recently asked by an equestrian magazine to give his top three tips for horse persons today. Here is the third. Read all of Monty's training tips here: [http://montyrobersoniversity.com/q\\_and\\_a](http://montyrobersoniversity.com/q_and_a)

### Answer:

My third tip is very appropriate for me to discuss as I have just met Dr. Noel Fitzpatrick; he is known as the SuperVet for small animals in the UK. I would have to say that I totally agree with him that it is so important for humans to realize that our animals deserve a good life every bit as much as our friends and family. We all have a place on this earth and it is our obligation to learn how to enjoy our animals. We will reach a higher level of contentment in our lives if we successfully learn to love our animals and calmly and lovingly meet their needs.

## Monty's Principles

### How Horses Make Us Feel

Hi, my name is Angela and I just got back home in Italy after spending a year in Illinois, USA. I've had the chance to ride almost every day because my neighbors have 10 beautiful horses. I start riding when I was 2 years old and I haven't stopped since then. When I'm riding horses, I just feel like my life is complete. I feel like everything that I need in my life are horses. In my area here in Italy there's not a lot of possibilities for working around horses.

That's why this past year spent in what used to be a part of the far west, has been the best year in my life. I've read a lot about you and I consider you my idol. Whenever I'm mad, or happy, or nervous, I just like talking with them and I really think they understand me. Horses have helped me more than anything else in the world to become the person I am today. I hope you'll read this letter. I'm just a normal girl who loves horses more than anything else.

Thank you, Angela

### MONTY'S RIDING WITH RESPECT CLINIC

Monty's Riding with Respect as seen in ACTHA Magazine: <http://joom.ag/GIWp>

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: [askmonty@montyroberts.com](mailto:askmonty@montyroberts.com)

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

~ Monty

#### Next Week's Question:

I bought my gelding last year. He is terribly head shy and fights like crazy when trying to put a bit in his mouth. I managed a couple times but he does not respect it. I am now using a hackamore. Seems better. He's happier with it and because I use your training methods and with your halter he has learned to trust and respect me. We have more to do. My question is what did they do to him and how will I ever get a bit back in his mouth?  
Michelle B.

## SUCCEED: Digestive Health

"I have believed for years that digestive health has a major impact on a horse's happiness, performance and overall well-being. Just by owning and riding horses, we take them out of their natural environment. We keep them in stalls, we feed them grain, and we exercise them. All of this works against the horse's digestive health.

I also believe there is something you can do to care for your horse's digestive system. I've been using a product called SUCCEED® on my performance horses for many years now, with tremendous results." ~ Monty

"The connection made in this book between leadership and non-violence is extremely important. Many leaders have employed violence or cruelty to achieve their ends but Monty Roberts has gone in the

opposite direction and shows how true leadership is about the development of trust (whether between a human and an animal or between humans) and encouraging those around one to reach their full potential. Everybody could benefit from absorbing the practices outlined in this book."

Andrew Rowan is the Chief Scientific Officer for The Humane Society of the United States.

Premise of the book: Monty Roberts, author of The New York Times bestseller, The Man Who Listens to Horses, has cooperated with the writing of a new book, Horse Sense for Leaders. The book borrows from the fascinating life of Roberts, known as the horse whisperer, for a highly engaging look at the significance of trust-based leadership. The book blends Monty's work as a world leader of non-violent horse training with current research on the value of a trust-based leadership approach. This unique approach allows for an interesting and provocative read on how leaders can engage followers in more effective relationships at work.
