Greetings!

MONTY ANSWERS

Question:

Your horse-language "Equus" is there for many years now-what is your recipe for success?

Answer:

First, I would like you to know that the horse communication system has been present for millions of years. I only discovered what nature already had in place. If I had a recipe for success, it would be through observation. I feel that I am best when I watch closely what horses are trying to tell me, and then act in an attempt to meet their needs.

Sincerely,
Monty

Monty's Principles

Working with Young People

Dear Monty,

I work with young adults with extremely severe physical challenges, Monty has inspired me to try his wonderful techniques.

I am truly blessed to be working with these amazing young people. I have watched several You Tube clips of Monty communicating with the horses and have been reduced to tears. I too like Monty would like to leave this world in a better place than I found it. A world of compassion, love and understanding.

It would be a dream to meet Monty and I am in complete awe of such an amazing man.

I will certainly read his book and apply his methods, so I too can communicate with my young disabled people.

God bless.

Kind Regards
Kelly Impiombato.

Editor's Note:

Hi Kelly,
Thank you very much for asking. Monty suggests you read his book *Horse Sense for People* found here: <https://montyrobortsshop.com/collections/books/products/horse-sense-for-people-by-monty-roborts>

Many have developed classroom plans from this road map. He hopes to complete *Monty's Principles*, an extension of this book in the future.

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: askmonty@montyroberts.com

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

~ Monty

Next Week's Question:

Hello, I'm just starting my gelding and my wife's mare. They are 3 and 4 respectively. They've both done well with Join-Up and do well on a lead. My question is, I really would like to learn to jump, so should I incorporate anything special in to initial work with my gelding?

CORIGEM: Honey Power

"The scientists behind Corigem® have found a nature-made healing gift from a species that no one before seemed to appreciate: a species of very busy bees that will improve the lives of humans and animals together."

SUCCEED: Digestive Health

"I have believed for years that digestive health has a major impact on a horse's happiness, performance and overall well-being. Just by owning and riding horses, we take them out of their natural environment. We keep them in stalls, we feed them grain, and we exercise them. All of this works against the horse's digestive health.

I also believe there is something you can do to care for your horse's digestive system. I've been using a product called SUCCEED® on my performance horses for many years now, with tremendous results." ~ Monty

Horse Sense for Leaders: Building Trust-Based Relationships Features New York Times Best-Selling Author Monty Roberts

"The connection made in this book between leadership and non-violence is extremely important. Many leaders have employed violence or cruelty to achieve their ends but Monty Roberts has gone in the opposite direction and shows how true leadership is about the development of trust (whether between a human and an animal or between humans) and encouraging those around one to reach their full potential. Everybody could benefit from absorbing the practices outlined in this book."

Andrew Rowan is the Chief Scientific Officer for The Humane Society of the United States.

Premise of the book: Monty Roberts, author of The New York Times bestseller, The Man Who Listens to Horses, has cooperated with the writing of a new book, Horse Sense for Leaders. The book borrows from the fascinating life of Roberts, known as the horse whisperer, for a highly engaging look at the significance of trust-based leadership. The book blends Monty's work as a world leader of non-violent horse training with current research on the value of a trust-based leadership approach. This unique approach allows for an interesting and provocative read on how leaders can engage followers in more effective relationships at work.
