**Question**

You have been in Austria before; can you tell if there is a difference between the horses here in Austria and in other countries of the world?

### Monty's Answer

Since the horses are 50 million years old, I believe it is true that they are extremely similar over the entire globe. In our lifetime, we could note no differences in Austrian horses or horses from any other country.

Sincerely,  
Monty

### **MONTY'S PRINCIPLES HORSE SENSE AND HEALING**

Hi Monty,

Continuing to apply some horse smarts with people... and I think about what friend Jim Stretchberry told us at a past clinic in his devotional about embracing God's greatness in what he's provided by way of the horses and Monty of course.

The challenges we face with our fellow humans have SO MUCH to learn by way of interaction of horses, learning to trust is key, and we learn about overcoming fear, anger, depression, etc. Thank you all for being a part of something so great.

## MONTY'S CHALLENGE

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: [askmonty@montyroberts.com](mailto:askmonty@montyroberts.com)

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering - or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

~ Monty

## NEXT WEEK'S QUESTION

You have been working many years with horses. Are there still challenges in your work?

## HORSEMANSHIP RADIO

Richard Winters shares his new book "From Rider to Horseman." Richard was awarded the Western Equitarian Award for trainers in the Western riding disciplines who choose to train horses in the absence of violence. And Dr. Sue Cain has developed style assessments designed to help equestrians create breakthrough relationships with others and to help you better understand your horse. Jamie Jennings reads a Q&A from Monty's Inbox.

## HORSE SENSE FOR LEADERS

MONTY ROBERTS

Buying Monty's book, [Horse Sense for Leaders: Building Trust-Based Relationships](#), is another great way to support Monty in his efforts. We have a [Paperback Version](#) and a [Color Version](#). The Chief Scientific Officer for The Humane Society of the United States, Andrew Rowan, writes

"The connection made in this book between leadership and non-violence is extremely important. Many leaders have employed violence or cruelty to achieve their ends but Monty Roberts has gone in the opposite direction and shows how true leadership is about the development of trust (whether between a human and an animal or between humans) and encouraging those around one to reach their full potential. Everybody could benefit from absorbing the practices outlined in this book."
