## Question

Are horses similar in character, or are there different horse characters as human characters?

## Answer

Horses come in all shapes and sizes, and I probably work with as many different horses as any human on earth ever has. I sincerely believe that no two horses have ever been exactly the same, and if they are not as varied as people, they are close to it.

Sincerely,

**MONTY'S PRINCIPLES  
HORSE SENSE FOR PEOPLE**

### **From students attending Monty's Tour Demonstration in the UK:**

"Loved every minute of the evening. Got homework to do. Every horse was special, but the one I'll remember is Sienna. How Monty talked about what had happened, it touched everyone. How much a frightened little lady became calm and trusting was truly amazing. I can't wait if there is another tour next year." ~ Rachel Johnston

"Thank you all so much. It was amazing listening to Monty again today. So inspirational. So much sense. So much further learning and understanding I've had to support hubby and all the young people I learn with." ~ Angie Staple

"I first saw Monty 20 years ago. I've been doing his work ever since with great success with the great Dually halter (worth its weight), courses or Monty's Uni to use his methods on your own horses and have fun!" ~ Jerry and Carol Torgerson

## **MONTY'S CHALLENGE**

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: [askmonty@montyroberts.com](mailto:askmonty@montyroberts.com)

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering... or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!

## NEXT WEEK'S QUESTION

What can horse-friends learn in your demonstrations?
