Greetings!

Question

Dear Monty,

How can this benefit not just horse owners, but those working with other animals and our personal relationships?

Answer

It is my steadfast opinion that the animal kingdom is far closer to humans than modern man has perceived it to be. It seems to me every corporation that has attended my clinics has perceived the following statement to be the strongest takeaway for them: the good trainer can make a horse do whatever he wants it to. The great trainer can cause the horse to want to do it. If that lesson is lived out by with every parent, boss or in fact every human this world over, all relationships would be improved.

Sincerely,

ONLINE PRODUCT REVIEW: MONTY'S BOOKS

Horse Sense For People

I have enjoyed what I've read so far! And I would love to share some of my own special experiences with Monty. A horse (gelding) I rescued six years ago has shown some extraordinary traits, that prove horses can show not only protectiveness, but gratitude and love for me.

MONTY'S CHALLENGE

Test yourself each week as I challenge you to answer the question below. I mean this. Sit down and write

an answer. Don't wait for my answer next week. If you have been reading my Weekly Questions and Answers for the last six months, you should be in a position to do this. Send your answer to my team at: askmonty@montyroberts.com

Why should you bother? Because it will help you focus. There is probably a comparable question in your life that needs answering... or will be. If you can gain insight into how to go about answering a practical question that is loosely related to your

problem, this exercise will help you answer your nagging question. Then read my answer. I want all of my students to learn to be better trainers than me. That's good for you and good for horses!
